

Would the case officer please obtain and make available the technical details of the proposed apparatus. Including the power potentials of the 5G non isotropic antennae in dbm and the power drop off over distance in relation to the ICNIRP guidance of 1mw/cm² and in line with recent court cases which are pointing out that people with pacemakers and metal implants and the like are not covered by the ICNIRP guidance which the Council is relying on for safeguarding the health of its residents.
